

id	category	test_name	example_vaunit	example_reexample_stsimple_explreport_inteipatient_freisafety_note
1	CBC	Hemoglobin	11.68 g/dL	Below examHemoglobinThe examplHemoglobinEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
2	CBC	RBC Count	3.88 million/ μ L	4-5.5 millionBelow examRBC count tThe examplRBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
3	CBC	Hematocrit	35.2 %	36-46 % Below examHematocrit The examplHematocrit Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
4	CBC	MCV	93.2 fL	80-100 fL Within exanMCV descriThe examplMCV is mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
5	CBC	MCH	31.98 pg	Within exanMCH descriThe examplMCH is mchEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
6	CBC	MCHC	33.2 g/dL	Within exanMCHC descriThe examplMCHC is mcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
7	CBC	RDW	12.91 %	11.5-14.5 % Within exanRDW descriThe examplRDW is rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
8	CBC	WBC Count	8.48 $\times 10^3/\mu$ L	4-11 $\times 10^3/\mu$ LWithin exanWBC count The examplWBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
9	CBC	Neutrophils	72.4 %	40-70 % Above exanNeutrophils The examplNeutrophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
10	CBC	Lymphocytes	41.6 %	Above exanLymphocytiThe examplLymphocyteEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
11	CBC	Monocytes	1.52 %	2-8 % Below examMonocytes The examplMonocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
12	CBC	Eosinophils	0.6 %	1-6 % Below examEosinophils The examplEosinophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
13	CBC	Basophils	-00.16 %	0-2 % Below examBasophilsiThe examplBasophils is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
14	CBC	Platelet Cou	228.0 $\times 10^3/\mu$ L	150-450 $\times 10$ Within exanPlatelets helThe examplPlatelet CouEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
15	CBC	MPV	9.44 fL	7.5-12 fL Within exanMPV descriThe examplMPV is mpvEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
16	Diabetes	Fasting Gluc	87.4 mg/dL	70-99 mg/dlWithin exanGlucose is aThe examplFasting GlucEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
17	Diabetes	Random Glc	123.9 mg/dL	70-140 mg/cWithin exanGlucose is tiThe examplRandom GlcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
18	Diabetes	HbA1c	4.38 %	4-5.6 % Within exanHbA1c givesThe examplHbA1c is hbEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
19	Kidney	Creatinine	1.356 mg/dL	0.6-1.3 mg/LAbove exanCreatinine isiThe examplCreatinine isiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
20	Kidney	eGFR	122.4 mL/min/1.7	90-120 mL/rAbove exaneGFR is eThe exampleGFR is egfr Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
21	Kidney	BUN	6.0 mg/dL	7-20 mg/dL Below examBUN measuiThe examplBUN is bun iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
22	Kidney	Uric Acid	2.68 mg/dL	3-7 mg/dL Below examUric Acid is aThe examplUric Acid is iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
23	Electrolytes	Sodium	134.2 mmol/L	135-145 mMBelow examSodium is aiThe examplSodium is sEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
24	Electrolytes	Potassium	4.4 mmol/L	3.5-5.1 mMWithin exanPotassium iThe examplPotassium iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
25	Electrolytes	Chloride	103.84 mmol/L	98-106 mMWithin exanChloride is aThe examplChloride is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
26	Electrolytes	Calcium	8.9 mg/dL	8.5-10.5 mg/Within exanCalcium is aThe examplCalcium is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
27	Electrolytes	Bicarbonate	24.59 mmol/L	22-29 mmolWithin exanBicarbonateThe examplBicarbonateEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
28	Lipid Profile	Total Choles	107.59 mg/dL	0-199 mg/dlWithin exanTotal cholestThe examplTotal CholesterolEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
29	Lipid Profile	LDL Cholest	106.9 mg/dL	0-99 mg/dL Above exanLDL is a lipoiThe examplLDL CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
30	Lipid Profile	HDL Cholest	104.8 mg/dL	40-100 mg/(Above exanHDL is a lipoThe examplHDL CholesterolEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
31	Lipid Profile	Triglycerides	-011.9 mg/dL	0-149 mg/dlBelow examTriglycerideThe examplTriglyceridesEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
32	Liver	ALT	3.1 U/L	7-56 U/L Below examALT is an enThe examplALT is alt iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
33	Liver	AST	7.6 U/L	10-40 U/L Below examAST is an enThe examplAST is ast iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
34	Liver	ALP	60.5 U/L	44-147 U/L Within exanALP is an enThe examplALP is al iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
35	Liver	Total Bilirub	0.46 mg/dL	0.1-1.2 mg/LWithin exanBilirubin is aThe examplTotal BilirubEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
36	Liver	Albumin	4.25 g/dL	3.5-5 g/dL Within exanAlbumin is aThe examplAlbumin is aEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
37	Liver	Total Protein	7.54 g/dL	6-8.3 g/dL Within exanTotal proteiThe examplTotal ProteiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
38	Thyroid	TSH	3.42 μ IU/mL	0.4-4 μ IU/mWithin exanTSH is a horiThe examplTSH is tsh iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
39	Thyroid	Free T4	1.88 ng/dL	0.8-1.8 ng/dlAbove exanFree T4 is thThe examplFree T4 is frEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
40	Inflammatory	CRP	5.4 mg/L	0-5 mg/L Above exanCRP is a proThe examplCRP is crp iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
41	Inflammatory	ESR	-01.6 mm/hr	0-20 mm/hrBelow exanESR is a blocThe examplESR is esr iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
42	Iron	Ferritin	4.2 ng/mL	15-150 ng/nBelow examFerritin is aThe exampl

74	Electrolytes Chloride	103.28	mmol/L	98-106	mmol/L	Within exan Chloride is a The examplChloride is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
75	Electrolytes Calcium	10.16	mg/dL	8.5-10.5	mg/dL	Within exan Calcium is a The examplCalcium is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
76	Electrolytes Bicarbonate	24.1	mmol/L	22-29	mmol/L	Within exan Bicarbonate The examplBicarbonateEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
77	Lipid Profile Total Choles	93.5	mg/dL	0-199	mg/dL	Within exan Total choles The examplTotal CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
78	Lipid Profile LDL Cholest	63.4	mg/dL	0-99	mg/dL	Within exan LDL is a lipoThe examplLDL CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
79	Lipid Profile HDL Cholest	104.8	mg/dL	40-100	mg/dL	Above exan HDL is a lipoThe examplHDL CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
80	Lipid Profile Triglyceride	160.9	mg/dL	0-149	mg/dL	Above exan TriglycerideThe examplTriglycerideEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
81	Liver ALT	3.1	U/L	7-56	U/L	Below examALT is an enThe examplALT is alt is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
82	Liver AST	7.6	U/L	10-40	U/L	Below examAST is an enThe examplAST is ast is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
83	Liver ALP	35.8	U/L	44-147	U/L	Below examALP is an enThe examplALP is alp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
84	Liver Total Bilirub	0.39	mg/dL	0.1-1.2	mg/dL	Within exanBilirubin is a The examplTotal BilirubEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
85	Liver Albumin	4.14	g/dL	3.5-5	g/dL	Within exanAlbumin is a The examplAlbumin is aEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
86	Liver Total Protei	7.38	g/dL	6-8.3	g/dL	Within exan Total proteiThe examplTotal ProteiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
87	Thyroid TSH	3.17	µU/mL	0.4-4	µU/mL	Within exan TSH is a horThe examplTSH is tsh is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
88	Thyroid Free T4	1.04	ng/dL	0.8-1.8	ng/dL	Within exanFree T4 is th The examplFree T4 is frEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
89	Inflammatory CRP	5.4	mg/L	0-5	mg/L	Above exan CRP is a proThe examplCRP is crp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
90	Inflammatory ESR	21.6	mm/hr	0-20	mm/hr	Above exan ESR is a blocThe examplESR is esr is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
91	Iron Ferritin	4.2	ng/mL	15-150	ng/mL	Below examFerritin is a The examplFerritin is feEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
92	Vitamins Vitamin B12	144.0	pg/mL	200-900	pg/mL	Below examVitamin B12The examplVitamin B12Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
93	Vitamins Vitamin D	17.6	ng/mL	20-50	ng/mL	Below examVitamin D is The examplVitamin D is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
94	Urinalysis Urine Protei	11.2	mg/dL	0-20	mg/dL	Within exan Urine proteiThe examplUrine ProteiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
95	Urinalysis Urine Gluco	10.9	mg/dL	0-15	mg/dL	Within exan Urine glucosThe examplUrine GlucoEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
96	Urinalysis Urine Keton	1.0	mg/dL	0-5	mg/dL	Within exan Urine keton The examplUrine KetonEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
97	Urinalysis Urine pH	5.79	pH	4.5-8	pH	Within exan Urine pH deThe examplUrine pH is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
98	Urinalysis Urine Specif	1.08	ratio	1.005-1.03	ratio	Within exan Urine specifThe examplUrine Specif Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
99	CBC Hemoglobin	16.32	g/dL	12-16	g/dL	Above exan HemoglobinThe examplHemoglobinEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
100	CBC RBC Count	5.62	million/µL	4.5-5.5	million/µL	Above exan RBC count t The examplRBC Count tEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
101	CBC Hematocrit	35.2	%	36-46	%	Below examHematocrit The examplHematocrit Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
102	CBC MCV	78.4	fL	80-100	fL	Below examMCV descrilThe examplMCV is mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
103	CBC MCH	26.52	pg	27-33	pg	Below examMCH descrilThe examplMCH is mchEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
104	CBC MCHC	32.64	g/dL	32-36	g/dL	Within exanMCHC descrilThe examplMCHC is mcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
105	CBC RDW	12.49	%	11.5-14.5	%	Within exanRDW descrilThe examplRDW is rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
106	CBC WBC Count	7.5	×10 ³ /µL	4-11	×10 ³ /µL	Within exanWBC count The examplWBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
107	CBC Neutrophils	60.1	%	40-70	%	Within exanNeutrophils The examplNeutrophilsEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
108	CBC Lymphocyte	36.8	%	20-40	%	Within exanLymphocytThe examplLymphocytEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
109	CBC Monocytes	8.48	%	2-8	%	Above exan Monocytes The examplMonocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
110	CBC Eosinophils	6.4	%	1-6	%	Above exan Eosinophils The examplEosinophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
111	CBC Basophils	0.016	%	0-2	%	Below examBasophils aThe examplBasophils is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
112	CBC Platelet Cou	126.0	×10 ³ /µL	150-450	×10 ³ /µL	Below examPlatelets hThe examplPlatelet CouEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
113	CBC MPV	7.14	fL	7.5-12	fL	Below examMPV descrilThe examplMPV is mpvEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
114	Diabetes Fasting Gluc	83.3	mg/dL	70-99	mg/dL	Within exan Glucose is a The examplFasting GlucEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
115	Diabetes Random Glc	114.1	mg/dL	70-140	mg/dL	Within exan Glucose is tiThe examplRandom GlcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
116	Diabetes HbA1c	5.28	%	4.5-6	%	Within exanHbA1c gives The examplHbA1c is hbEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
117	Kidney Creatinine	0.789	mg/dL	0.6-1.3	mg/dL	Within exanCreatinine isThe examplCreatinine isEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
118	Kidney eGFR	103.2	mL/min/1.73	90-120	mL/min/1.73	Within exaneGFR is an eThe exampleGFR is egfrEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
119	Kidney BUN	21.0	mg/dL	7-20	mg/dL	Above exan BUN measuThe examplBUN is bunEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
120	Kidney Uric Acid	7.32	mg/dL	3-7	mg/dL	Above exanUric Acid is aThe examplUric Acid is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
121	Electrolytes Sodium	134.2	mmol/L	135-145	mmol/L	Below examSodium is aThe examplSodium is sEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
122	Electrolytes Potassium	3.37	mmol/L	3.5-5.1	mmol/L	Below examPotassium iThe examplPotassium iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
123	Electrolytes Chloride	97.36	mmol/L	98-106	mmol/L	Below examChloride is aThe examplChloride is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
124	Electrolytes Calcium	10.02	mg/dL	8.5-10.5	mg/dL	Within exanCalcium is a The examplCalcium is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
125	Electrolytes Bicarbonate	23.61	mmol/L	22-29	mmol/L	Within exan BicarbonateThe examplBicarbonateEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
126	Lipid Profile Total Choles	79.6	mg/dL	0-199	mg/dL	Within exan Total choles The examplTotal CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
127	Lipid Profile LDL Cholest	56.4	mg/dL	0-99	mg/dL	Within exan LDL is a lipoThe examplLDL CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
128	Lipid Profile HDL Cholest	84.4	mg/dL	40-100	mg/dL	Within exan HDL is a lipoThe examplHDL CholestEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
129	Lipid Profile Triglyceride	160.9	mg/dL	0-149	mg/dL	Above exan TriglycerideThe examplTriglycerideEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
130	Liver ALT	59.9	U/L	7-56	U/L	Above examALT is an enThe examplALT is alt is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
131	Liver AST	7.6	U/L	10-40	U/L	Below examAST is an enThe examplAST is ast is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
132	Liver ALP	35.8	U/L	44-147	U/L	Below examALP is an enThe examplALP is alp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
133	Liver Total Bilirub	0.01	mg/dL	0.1-1.2	mg/dL	Below examBilirubin is a The examplTotal BilirubEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
134	Liver Albumin	4.04	g/dL	3.5-5	g/dL	Within exanAlbumin is aThe examplAlbumin is aEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
135	Liver Total Protei	7.22	g/dL	6-8.3	g/dL	Within exan Total proteiThe examplTotal ProteiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
136	Thyroid TSH	2.92	µU/mL	0.4-4	µU/mL	Within exan TSH is a horThe examplTSH is tsh is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
137	Thyroid Free T4	0.97	ng/dL	0.8-1.8	ng/dL	Within exanFree T4 is th The examplFree T4 is frEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
138	Inflammatory CRP	1.7	mg/L	0-5	mg/L	Within exan CRP is a proThe examplCRP is crp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
139	Inflammatory ESR	21.6	mm/hr	0-20	mm/hr	Above exan ESR is a blocThe examplESR is esr is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
140	Iron Ferritin	160.8	ng/mL	15-150	ng/mL	Above examFerritin is aThe examplFerritin is feEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
141	Vitamins Vitamin B12	144.0	pg/mL	200-900	pg/mL	Below examVitamin B12The examplVitamin B12Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
142	Vitamins Vitamin D	17.6	ng/mL	20-50	ng/mL	Below examVitamin D is The examplVitamin D is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
143	Urinalysis Urine Protei	0.16	mg/dL	0-20	mg/dL	Below examUrine proteiThe examplUrine ProteiEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
144	Urinalysis Urine Gluco	9.9	mg/dL	0-15	mg/dL	Within exan Urine glucosThe examplUrine GlucoEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
145	Urinalysis Urine Keton	4.15	mg/dL	0-5	mg/dL	Within exan Urine keton The examplUrine KetonEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
146	Urinalysis Urine pH	5.55	pH	4.5-8	pH	Within exan Urine pH deThe examplUrine pH is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
147	Urinalysis Urine Specif	1.017	ratio	1.005-1.03	ratio	Within exan Urine specifThe examplUrine Specif Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.

148	CBC	Hemoglobin	14.56 g/dL	12-16 g/dL	Within exanHemoglobinThe examplHemoglobinEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
149	CBC	RBC Count	5.62 million/ μ L	4-5.5 millionAbove exanRBC count tThe examplRBC CountEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
150	CBC	Hematocrit	46.8 %	36-46 %	Above exanHematocritThe examplHematocritEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
151	CBC	MCV	78.4 fL	80-100 fL	Below examMCV descriThe examplMCV is mcvEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
152	CBC	MCH	26.52 pg	27-33 pg	Below examMCH descriThe examplMCH is mchEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
153	CBC	MCHC	31.68 g/dL	32-36 g/dL	Below examMCHC descriThe examplMCHC is mcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
154	CBC	RDW	12.28 %	11.5-14.5 %	Within exanRDW descriThe examplRDW is rdwEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
155	CBC	WBC Count	7.01 $\times 10^3/\mu$ L	4-11 $\times 10^3/\mu$ L	Within exanWBC CountThe examplWBC CountEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
156	CBC	Neutrophils	58.0 %	40-70 %	Within exanNeutrophilsThe examplNeutrophilsEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
157	CBC	Lymphocyte	35.4 %	20-40 %	Within exanLymphocyteThe examplLymphocyteEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
158	CBC	Monocytes	3.44 %	2-8 %	Within exanMonocytesThe examplMonocytesEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
159	CBC	Eosinophils	6.4 %	1-6 %	Above exanEosinophilsThe examplEosinophilsEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
160	CBC	Basophils	2.16 %	0-2 %	Above exanBasophils aiThe examplBasophils is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.

215	Kidney	Creatinine	1.181 mg/dL	0.6-1.3 mg/r	Within exanCreatinine iThe examplCreatinine isEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
216	Kidney	eGFR	99.0 mL/min/1.7	90-120 mL/r	Within exaneGFR is an eThe exampleGFR is egrEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
217	Kidney	BUN	13.1 mg/dL	7-20 mg/dL	Within exanBUN measuThe examplBUN is bunEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
218	Kidney	Uric Acid	5.56 mg/dL	3-7 mg/dL	Within exanUric acid is aThe examplUric Acid is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
219	Electrolytes	Sodium	145.8 mmol/L	135-145 mm	Above exanSodium is aiThe examplSodium is scEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
220	Electrolytes	Potassium	5.23 mmol/L	3.5-5.1 mm	Above examPotassium iThe examplPotassium iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
221	Electrolytes	Chloride	97.36 mmol/L	98-106 mm	Below examChloride is aThe examplChloride is cEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.

222	Electrolytes Calcium	8.34	mg/dL	8.5-10.5	mg/	Below exam Calcium is a The exam Calcium is c Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
223	Electrolytes Bicarbonate	21.44	mmol/L	22-29	mmol/	Below exam Bicarbonate The exam Bicarbonate Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
224	Lipid Profile Total Choles	51.7	mg/dL	0-199	mg/dL	Within exam Total choles The exam Total Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
225	Lipid Profile LDL Cholest	42.6	mg/dL	0-99	mg/dL	Within exam LDL is a lip The exam LDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
226	Lipid Profile HDL Cholest	76.0	mg/dL	40-100	mg/	Within exam HDL is a lip The exam HDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
227	Lipid Profile Triglyceride	114.7	mg/dL	0-149	mg/dL	Within exam Triglyceride The exam Triglyceride Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
228	Liver ALT	18.8	U/L	7-56	U/L	Within exam ALT is an en The exam ALT is alt i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
229	Liver AST	42.4	U/L	10-40	U/L	Above exam AST is an en The exam AST is ast i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
230	Liver ALP	155.2	U/L	44-147	U/L	Above exam ALP is an en The exam ALP is alp i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
231	Liver Total Bilirub	0.01	mg/dL	0.1-1.2	mg/	Below exam Bilirubin is a The exam Total Bilirub Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
232	Liver Albumin	3.38	g/dL	3.5-5	g/dL	Below exam Albumin is a The exam Albumin i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
233	Liver Total Protein	5.82	g/dL	6-8.3	g/dL	Below exam Total protein The exam Total Protein Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
234	Thyroid TSH	2.42	µIU/mL	0.4-4	µIU/	Within exam TSH is a hor The exam TSH is tsh i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
235	Thyroid Free T4	0.8-1.8	ng/dL	0.8-1.8	ng/	Within exam Free T4 is th The exam Free T4 is fr Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
236	Inflammatory CRP	1.0	mg/L	0-5	mg/	Within exam CRP is a pro The exam CRP is crp i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
237	Inflammatory ESR	7.4	mm/hr	0-20	mm/	hr Within exam ESR is a bloc The exam ESR is esr i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
238	Iron Ferritin	87.9	ng/mL	15-150	ng/	n Within exam Ferritin is a j The exam Ferritin is fe Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
239	Vitamins Vitamin B12	956.0	pg/mL	200-900	pg/	Above exam Vitamin B12 The exam Vitamin B12 Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
240	Vitamins Vitamin D	52.4	ng/mL	20-50	ng/	Above exam Vitamin D is The exam Vitamin D is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
241	Urinalysis Urine Protein	-0.16	mg/dL	0-20	mg/dL	Below exam Urine protein The exam Urine Protein Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
242	Urinalysis Urine Glucose	-0.12	mg/dL	0-15	mg/dL	Below exam Urine glucose The exam Urine Gluco Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
243	Urinalysis Urine Ketone	-0.04	mg/dL	0-5	mg/dL	Below exam Urine ketone The exam Urine Ketone Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
244	Urinalysis Urine pH	5.06	pH	4.5-8	pH	Within exam Urine pH de The exam Urine pH i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
245	Urinalysis Urine Specific	1.013	ratio	1.005-1.03	r/	Within exam Urine specific The exam Urine Specific Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
246	CBC Hemoglobin	14.0	g/dL	12-16	g/dL	Within exam Hemoglobin The exam Hemoglobin Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
247	CBC RBC Count	5.0	million/µL	4.5-5	million/	Within exam RBC count t The exam RBC Count i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
248	CBC Hematocrit	44.4	%	36-46	%	Within exam Hematocrit The exam Hematocrit Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
249	CBC MCV	101.6	fL	80-100	fL	Above exam MCV descri The exam MCV is mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
250	CBC MCH	33.48	pg	27-33	pg	Above exam MCH descri The exam MCH is mch Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
251	CBC MCHC	31.88	g/dL	32-36	g/dL	Below exam MCHC descri The exam MCHC is mc Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
252	CBC RDW	11.41	%	11.5-14.5	%	Below exam RDW descri The exam RDW is rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
253	CBC WBC Count	3.79	×10 ³ /µL	4.1-11	×10 ³ /	µL Below exam WBC count The exam WBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
254	CBC Neutrophils	53.8	%	40-70	%	Within exam Neutrophils The exam Neutrophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
255	CBC Lymphocytes	32.6	%	20-40	%	Within exam Lymphocyte The exam Lymphocyte Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
256	CBC Monocytes	6.8	%	2-8	%	Within exam Monocytes The exam Monocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
257	CBC Eosinophils	2.35	%	1-6	%	Within exam Eosinophils The exam Eosinophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
258	CBC Basophils	0.88	%	0-2	%	Within exam Basophils a The exam Basophils i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
259	CBC Platelet Count	474.0	×10 ³ /µL	150-450	×10	Above exam Platelets he The exam Platelet Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
260	CBC MPV	12.36	fL	7.5-12	fL	Above exam MPV descri The exam MPV is mpv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's

296	CBC	RBC Count	4.9 million/ μ L	4-5.5 million/ μ L	Within exam RBC count t	The exam RBC Count i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
297	CBC	Hematocrit	43.7 %	36-46 %	Within exam Hematocrit	The exam Hematocrit i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
298	CBC	MCV	84.8 fL	80-100 fL	Within exam MCV descr	The exam MCV is mcv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
299	CBC	MCH	33.48 pg	27-33 pg	Above exam MCH descr	The exam MCH is mch	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
300	CBC	MCHC	36.32 g/dL	32-36 g/dL	Above exam MCHC desc	The exam MCHC is mc	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
301	CBC	RDW	11.26 %	11.5-14.5 %	Below exam RDW descr	The exam RDW is rdw	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
302	CBC	WBC Count	3.44 $\times 10^3$ / μ L	4-11 $\times 10^3$ / μ L	Above exam WBC count	The exam WBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
303	CBC	Neutrophils	37.6 %	40-70 %	Below exam Neutrophils	The exam Neutrophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
304	CBC	Lymphocyte	31.2 %	20-40 %	Within exam Lymphocyte	The exam Lymphocyte	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
305	CBC	Monocytes	6.38 %	2-8 %	Within exam Monocytes	The exam Monocytes	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
306	CBC	Eosinophils	2.0 %	1-6 %	Within exam Eosinophils	The exam Eosinophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
307	CBC	Basophils	0.74 %	0-2 %	Within exam Basophils a	The exam Basophils i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
308	CBC	Platelet Cou	312.0 $\times 10^3$ / μ L	150-450 $\times 10^3$ / μ L	Within exam Platelets h	The exam Platelet Cou	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
309	CBC	MPV	12.36 fL	7.5-12 fL	Above exam MPV descr	The exam MPV is mpv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
310	Diabetes	Fasting Gluc	101.3 mg/dL	70-99 mg/dL	Above exam Glucose is a	The exam Fasting Gluc	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
311	Diabetes	Random Glu	64.4 mg/dL	70-140 mg/dL	Below exam Glucose is t	The exam Random Glu	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
312	Diabetes	HbA1c	3.87 %	4-5.6 %	Below exam HbA1c gives	The exam HbA1c is hb	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
313	Kidney	Creatinine	0.544 mg/dL	0.6-1.3 mg/dL	Below exam Creatinine i	The exam Creatinine i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
314	Kidney	eGFR	94.8 mL/min/1.73	90-120 mL/min/1.73	Within exam eGFR is a	The exam eGFR is egfr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
315	Kidney	BUN	11.3 mg/dL	7-20 mg/dL	Within exam BUN measu	The exam BUN is bun	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
316	Kidney	Uric Acid	5.0 mg/dL	3-7 mg/dL	Within exam Uric Acid is a	The exam Uric Acid i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
317	Electrolytes	Sodium	141.7 mmol/L	135-145 mmol/L	Within exam Sodium is a	The exam Sodium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
318	Electrolytes	Potassium	4.84 mmol/L	3.5-5.1 mmol/L	Within exam Potassium i	The exam Potassium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
319	Electrolytes	Chloride	106.64 mmol/L	98-106 mmol/L	Above exam Chloride is a	The exam Chloride i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
320	Electrolytes	Calcium	10.66 mg/dL	8.5-10.5 mg/dL	Above exam Calcium is a	The exam Calcium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
321	Electrolytes	Bicarbonate	21.44 mmol/L	22-29 mmol/L	Below exam Bicarbonate	The exam Bicarbonate	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
322	Lipid Profile	Total Choles	-015.9 mg/dL	0-199 mg/dL	Below exam Total chole	The exam Total Choles	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
323	Lipid Profile	LDL Cholest	-07.9 mg/dL	0-99 mg/dL	Below exam LDL is a li	The exam LDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
324	Lipid Profile	HDL Cholest	67.6 mg/dL	40-100 mg/dL	Within exam HDL is a li	The exam HDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
325	Lipid Profile	Triglyceride	93.9 mg/dL	0-149 mg/dL	Within exam Triglyceride	The exam Triglyceride	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
326	Liver	ALT	46.2 U/L	7-56 U/L	Within exam ALT is an e	The exam ALT is alt	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
327	Liver	AST	18.1 U/L	10-40 U/L	Within exam AST is an e	The exam AST is ast	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
328	Liver	ALP	89.3 U/L	44-147 U/L	Within exam ALP is an e	The exam ALP is alp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
329	Liver	Total Bilirub	1.29 mg/dL	0.1-1.2 mg/dL	Above exam Bilirubin i	The exam Total Bilirub	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
330	Liver	Albumin	5.12 g/dL	3.5-5.2 g/dL	Above exam Albumin is a	The exam Albumin i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
331	Liver	Total Protei	5.82 g/dL	6-8.3 g/dL	Below exam Total protei	The exam Total Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
332	Thyroid	TSH	0.11 μ U/mL	0.4-4 μ U/mL	Below exam TSH is a h	The exam TSH is tsh	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
333	Thyroid	Free T4	0.72 ng/dL	0.8-1.8 ng/dL	Below exam Free T4 is t	The exam Free T4 is fr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
334	Inflammatory	CRP	3.8 mg/L	0-5 mg/L	Within exam CRP is a p	The exam CRP is crp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
335	Inflammatory	ESR	4.6 mm/hr	0-20 mm/hr	Within exam ESR is a b	The exam ESR is esr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
336	Iron	Ferritin	69.0 ng/mL	15-150 ng/mL	Within exam Ferritin is a	The exam Ferritin is fe	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
337	Vitamins	Vitamin B12	599.0 pg/mL	200-900 pg/mL	Within exam Vitamin B12	The exam Vitamin B12	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
338	Vitamins	Vitamin D	42.2 ng/mL	20-50 ng/mL	Within exam Vitamin D	The exam Vitamin D	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
339	Urinalysis	Urine Protei	21.6 mg/dL	0-20 mg/dL	Above exam Urine protei	The exam Urine Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
340	Urinalysis	Urine Gluco	16.2 mg/dL	0-15 mg/dL	Above exam Urine gluc	The exam Urine Gluco	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
341	Urinalysis	Urine Keton	-0.04 mg/dL	0-5 mg/dL	Below exam Urine keton	The exam Urine Keton	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
342	Urinalysis	Urine pH	4.22 pH	4-5.8 pH	Below exam Urine pH de	The exam Urine pH i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
343	Urinalysis	Urine Specif	1.003 ratio	1.005-1.03 r	Below exam Urine specif	The exam Urine Specif	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
344	CBC	Hemoglobin	13.44 g/dL	12-16 g/dL	Within exam Hemoglobin	The exam Hemoglobin	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
345	CBC	RBC Count	4.79 million/ μ L	4-5.5 million/ μ L	Within exam RBC count t	The exam RBC Count i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
346	CBC	Hematocrit	43.0 %	36-46 %	Within exam Hematocrit	The exam Hematocrit	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
347	CBC	MCV	83.4 fL	80-100 fL	Within exam MCV descr	The exam MCV is mcv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
348	CBC	MCH	29.04 pg	27-33 pg	Within exam MCH descr	The exam MCH is mch	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
349	CBC	MCHC	36.32 g/dL	32-36 g/dL	Above exam MCHC desc	The exam MCHC is mc	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
350	CBC	RDW	14.74 %	11.5-14.5 %	Above exam RDW descr	The exam RDW is rdw	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
351	CBC	WBC Count	2.95 $\times 10^3$ / μ L	4-11 $\times 10^3$ / μ L	Below exam WBC count	The exam WBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
352	CBC	Neutrophils	35.5 %	40-70 %	Below exam Neutrophils	The exam Neutrophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
353	CBC	Lymphocyte	17.0 %	20-40 %	Below exam Lymphocyte	The exam Lymphocyte	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
354	CBC	Monocytes	5.96 %	2-8 %	Within exam Monocytes	The exam Monocytes	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
355	CBC	Eosinophils	5.15 %	1-6 %	Within exam Eosinophils	The exam Eosinophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
356	CBC	Basophils	0.6 %	0-2 %	Within exam Basophils a	The exam Basophils i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
357	CBC	Platelet Cou	291.0 $\times 10^3$ / μ L	150-450 $\times 10^3$ / μ L	Within exam Platelets h	The exam Platelet Cou	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
358	CBC	MPV	10.38 fL	7.5-12 fL	Within exam MPV descr	The exam MPV is mpv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
359	Diabetes	Fasting Gluc	101.3 mg/dL	70-99 mg/dL	Above exam Glucose is a	The exam Fasting Gluc	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
360	Diabetes	Random Glu	145.6 mg/dL	70-140 mg/dL	Above exam Glucose is t	The exam Random Glu	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
361	Diabetes	HbA1c	3.76 %	4-5.6 %	Below exam HbA1c gives	The exam HbA1c is hb	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
362	Kidney	Creatinine	0.495 mg/dL	0.6-1.3 mg/dL	Below exam Creatinine i	The exam Creatinine i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
363	Kidney	eGFR	85.5 mL/min/1.73	90-120 mL/min/1.73	Within exam eGFR is a	The exam eGFR is egfr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
364	Kidney	BUN	10.4 mg/dL	7-20 mg/dL	Within exam BUN measu	The exam BUN is bun	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
365	Kidney	Uric Acid	4.72 mg/dL	3-7 mg/dL	Within exam Uric Acid is a	The exam Uric Acid i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
366	Electrolytes	Sodium	141.0 mmol/L	135-145 mmol/L	Within exam Sodium is a	The exam Sodium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
367	Electrolytes	Potassium	4.73 mmol/L	3.5-5.1 mmol/L	Within exam Potassium i	The exam Potassium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
368	Electrolytes	Chloride	99.92 mmol/L	98-106 mmol/L	Within exam Chloride is a	The exam Chloride i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
369	Electrolytes	Calcium	10.66 mg/dL	8.5-10.5 mg/dL	Above exam Calcium is a	The exam Calcium i	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.

370	Electrolytes	Bicarbonate	29.56 mmol/L	22-29 mmol/L	Above exam Bicarbonate	The exam Bicarbonate	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
371	Lipid Profile	Total Choles	<029.8 mg/dL	0-199 mg/dL	Above exam Total Choles	The exam Total Choles	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
372	Lipid Profile	LDL Cholest	<014.8 mg/dL	0-99 mg/dL	Below exam LDL	is a lipo	The exam LDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
373	Lipid Profile	HDL Cholest	31.0 mg/dL	40-100 mg/dL	Below exam HDL	is a lipo	The exam HDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
374	Lipid Profile	Triglyceride	83.4 mg/dL	0-149 mg/dL	Above exam Triglyceride	The exam Triglyceride	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
375	Liver	ALT	42.8 U/L	7-56 U/L	Within exam ALT	is an en	The exam ALT is alt	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
376	Liver	AST	16.0 U/L	10-40 U/L	Within exam AST	is an en	The exam AST is ast	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
377	Liver	ALP	82.1 U/L	44-147 U/L	Within exam ALP	is an en	The exam ALP is alp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
378	Liver	Total Bilirub	0.69 mg/dL	0.1-1.2 mg/dL	Within exam Bilirubin	is a	The exam Total Bilirub	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
379	Liver	Albumin	5.12 g/dL	3.5-5 g/dL	Above exam Albumin	is a	The exam Albumin is a	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
380	Liver	Total Protei	8.48 g/dL	6-8.3 g/dL	Above exam Total protei	The exam Total Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
381	Thyroid	TSH	<00.14 µU/mL	0.4-4 µU/mL	Below exam TSH	is a	hor	The exam TSH is tsh	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
382	Thyroid	Free T4	0.65 ng/dL	0.8-1.8 ng/dL	Below exam Free T4	is a	th	The exam Free T4 is fr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
383	Inflammatory	CRP	<00.75 mg/L	0-5 mg/L	Below exam CRP	is a	pro	The exam CRP is crp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
384	Inflammatory	ESR	3.2 mm/hr	0-20 mm/hr	Within exam ESR	is a	blo	The exam ESR is esr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
385	Iron	Ferritin	59.5 ng/mL	15-150 ng/mL	Within exam Ferritin	is a	The exam Ferritin is fe	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
386	Vitamins	Vitamin B12	550.0 pg/mL	200-900 pg/mL	Within exam Vitamin B12	The exam Vitamin B12	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
387	Vitamins	Vitamin D	40.1 ng/mL	20-50 ng/mL	Within exam Vitamin D	is a	The exam Vitamin D is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
388	Urinalysis	Urine Protei	16.8 mg/dL	0-20 mg/dL	Within exam Urine protei	The exam Urine Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
389	Urinalysis	Urine Gluco	16.2 mg/dL	0-15 mg/dL	Above exam Urine gluco	The exam Urine Gluco	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
390	Urinalysis	Urine Keton	5.4 mg/dL	0-5 mg/dL	Above exam Urine keton	The exam Urine Keton	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
391	Urinalysis	Urine pH	3.98 pH	4.5-8 pH	Below exam Urine pH	de	The exam Urine pH is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
392	Urinalysis	Urine Specif	1.001 ratio	1.005-1.03 r	Below exam Urine specif	The exam Urine Specif	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
393	CBC	Hemoglobin	11.0 g/dL	12-16 g/dL	Below exam Hemoglobin	The exam Hemoglobin	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
394	CBC	RBC Count	4.69 million/µL	4-5.5 million	Within exam RBC count	t	The exam RBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
395	CBC	Hematocrit	42.3 %	36-46 %	Within exam Hematocrit	The exam Hematocrit	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
396	CBC	MCV	96.0 fL	80-100 fL	Within exam MCV	descri	The exam MCV is mcv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
397	CBC	MCH	28.62 pg	27-33 pg	Within exam MCH	descri	The exam MCH is mch	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
398	CBC	MCHC	33.76 g/dL	32-36 g/dL	Within exam MCHC	descri	The exam MCHC is mc	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
399	CBC	RDW	14.74 %	11.5-14.5 %	Above exam RDW	descri	The exam RDW is rdw	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
400	CBC	WBC Count	11.56 ×10 ⁹ /µL	4-11 ×10 ⁹ /µL	Above exam WBC count	The exam WBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
401	CBC	Neutrophils	32.5 %	40-70 %	Below exam Neutrophils	The exam Neutrophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
402	CBC	Lymphocyte	15.0 %	20-40 %	Below exam Lymphocyte	The exam Lymphocyte	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
403	CBC	Monocytes	0.5 %	2-8 %	Below exam Monocytes	The exam Monocytes	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
404	CBC	Eosinophils	4.8 %	1-6 %	Within exam Eosinophils	The exam Eosinophils	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
405	CBC	Basophils	0.46 %	0-2 %	Within exam Basophils	a	The exam Basophils is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
406	CBC	Platelet Cou	270.0 ×10 ⁹ /µL	150-450 ×10 ⁹ /µL	Within exam Platelets	he	The exam Platelet Cou	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
407	CBC	MPV	10.06 fL	7.5-12 fL	Within exam MPV	descri	The exam MPV is mpv	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
408	Diabetes	Fasting Gluc	91.5 mg/dL	70-99 mg/dL	Above exam Fasting Glucose	is a	The exam Fasting Glucose	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
409	Diabetes	Random Glu	145.6 mg/dL	70-140 mg/dL	Above exam Random Glucose	is a	The exam Random Glucose	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
410	Diabetes	HbA1c	5.73 %	4.5-6.3 %	Above exam HbA1c	gives	The exam HbA1c is hb	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
411	Kidney	Creatinine	0.425 mg/dL	0.6-1.3 mg/dL	Below exam Creatinine	is a	The exam Creatinine is e	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
412	Kidney	eGFR	82.5 mL/min/1.73 m ²	90-120 mL/min/1.73 m ²	Below exam eGFR	is a	The exam eGFR is egr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
413	Kidney	BUN	3.8 mg/dL	7-20 mg/dL	Below exam BUN	measu	The exam BUN is bun	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
414	Kidney	Uric Acid	4.44 mg/dL	3-7 mg/dL	Within exam Uric acid	is a	The exam Uric Acid is tsh	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
415	Electrolytes	Sodium	140.3 mmol/L	135-145 mmol/L	Within exam Sodium	is a	The exam Sodium is s	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
416	Electrolytes	Potassium	4.62 mmol/L	3.5-5.1 mmol/L	Within exam Potassium	is a	The exam Potassium is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
417	Electrolytes	Chloride	99.36 mmol/L	98-106 mmol/L	Within exam Chloride	is a	The exam Chloride is c	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
418	Electrolytes	Calcium	9.18 mg/dL	8.5-10.5 mg/dL	Within exam Calcium	is a	The exam Calcium is c	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
419	Electrolytes	Bicarbonate	29.56 mmol/L	22-29 mmol/L	Above exam Bicarbonate	The exam Bicarbonate	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
420	Lipid Profile	Total Choles	214.9 mg/dL	0-199 mg/dL	Above exam Total choles	The exam Total Choles	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
421	Lipid Profile	LDL Cholest	<024.8 mg/dL	0-99 mg/dL	Below exam LDL	is a lipo	The exam LDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
422	Lipid Profile	HDL Cholest	<05.0 mg/dL	40-100 mg/dL	Below exam HDL	is a lipo	The exam HDL Cholest	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
423	Lipid Profile	Triglyceride	<037.2 mg/dL	0-149 mg/dL	Above exam Triglyceride	The exam Triglyceride	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
424	Liver	ALT	39.3 U/L	7-56 U/L	Within exam ALT	is an en	The exam ALT is alt	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
425	Liver	AST	34.9 U/L	10-40 U/L	Within exam AST	is an en	The exam AST is ast	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
426	Liver	ALP	74.9 U/L	44-147 U/L	Within exam ALP	is an en	The exam ALP is alp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
427	Liver	Total Bilirub	0.62 mg/dL	0.1-1.2 mg/dL	Within exam Bilirubin	is a	The exam Total Bilirub	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
428	Liver	Albumin	4.46 g/dL	3.5-5 g/dL	Within exam Albumin	is a	The exam Albumin is a	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
429	Liver	Total Protei	8.48 g/dL	6-8.3 g/dL	Above exam Total protei	The exam Total Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
430	Thyroid	TSH	4.29 µU/mL	0.4-4 µU/mL	Above exam TSH	is a	hor	The exam TSH is tsh	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
431	Thyroid	Free T4	0.55 ng/dL	0.8-1.8 ng/dL	Below exam Free T4	is a	th	The exam Free T4 is fr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
432	Inflammatory	CRP	<01.25 mg/L	0-5 mg/L	Below exam CRP	is a	pro	The exam CRP is crp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
433	Inflammatory	ESR	<05.0 mm/hr	0-20 mm/hr	Below exam ESR	is a	blo	The exam ESR is esr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
434	Iron	Ferritin	50.1 ng/mL	15-150 ng/mL	Within exam Ferritin	is a	The exam Ferritin is fe	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
435	Vitamins	Vitamin B12	501.0 pg/mL	200-900 pg/mL	Within exam Vitamin B12	The exam Vitamin B12	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
436	Vitamins	Vitamin D	38.0 ng/mL	20-50 ng/mL	Within exam Vitamin D	is a	The exam Vitamin D is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
437	Urinalysis	Urine Protei	15.4 mg/dL	0-20 mg/dL	Within exam Urine protei	The exam Urine Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
438	Urinalysis	Urine Gluco	3.6 mg/dL	0-15 mg/dL	Within exam Urine gluco	The exam Urine Gluco	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
439	Urinalysis	Urine Keton	5.4 mg/dL	0-5 mg/dL	Above exam Urine keton	The exam Urine Keton	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
440	Urinalysis	Urine pH	8.28 pH	4.5-8 pH	Above exam Urine pH	de	The exam Urine pH is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
441	Urinalysis	Urine Specif	0.999 ratio	1.005-1.03 r	Below exam Urine specif	The exam Urine Specif	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
442	CBC	Hemoglobin	11.68 g/dL	12-16 g/dL	Below exam Hemoglobin	The exam Hemoglobin	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.		
443	CBC	RBC Count	3.88 million/µL	4-5.5 million	Below exam RBC count	t	The exam RBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	

442	CBC	Hematocrit	41.6 %	36-46 %	Within examHematocrit iThe examplHematocrit iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
445	CBC	MCV	94.6 fL	80-100 fL	Within examMCV descriThe examplMCV i mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
446	CBC	MCH	28.2 pg	27-33 pg	Within examMCH descriThe examplMCH i mch Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
447	CBC	MCHC	33.48 g/dL	32-36 g/dL	Within examMCHC descriThe examplMCHC i mcEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
448	CBC	RDW	13.12 %	11.5-14.5 %	Within examRDW descriThe examplRDW i rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
449	CBC	WBC Count	11.56 ×10 ³ /μL	4-11 ×10 ³ /μL	Above examWBC count iThe examplWBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
450	CBC	Neutrophils	72.4 %	40-70 %	Above examNeutrophils iThe examplNeutrophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
451	CBC	Lymphocyte	18.4 %	20-40 %	Below examLymphocyteiThe examplLymphocyteEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
452	CBC	Monocytes	1.52 %	2-8 %	Below examMonocytes iThe examplMonocytes iEducational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.

570	Lipid Profile	Triglycerides	160.9	mg/dL	0-149 mg/dl	Above exam	Triglycerides	The exampl	Triglycerides	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
571	Liver	ALT	3.1	U/L	7-56 U/L	Below exam	ALT is an en	The exampl	ALT is alt	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
572	Liver	AST	7.6	U/L	10-40 U/L	Below exam	AST is an en	The exampl	AST is ast	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
573	Liver	ALP	35.8	U/L	44-147 U/L	Below exam	ALP is an en	The exampl	ALP is alp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
574	Liver	Total Bilirub	0.39	mg/dL	0.1-1.2 mg/	Within exam	Bilirubin is a	The exampl	Total Bilirub	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
575	Liver	Albumin	4.14	g/dL	3.5-5 g/dL	Within exam	Albumin is a	The exampl	Albumin is a	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
576	Liver	Total Protei	7.38	g/dL	6.8-3 g/dL	Within exam	Total protei	The exampl	Total Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
577	Thyroid	TSH	3.17	µU/mL	0.4-4 µU/m	Within exam	TSH is a hori	The exampl	TSH is tsh	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
578	Thyroid	Free T4	1.04	ng/dL	0.8-1.8 ng/d	Within exam	Free T4 is th	The exampl	Free T4 is fr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
579	Inflammatory	CRP	5.4	mg/L	0-5 mg/L	Above exam	CRP is a pro	The exampl	CRP is crp	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
580	Inflammatory	ESR	21.6	mm/hr	0-20 mm/hr	Above exam	ESR is a blo	The exampl	ESR is esr	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
581	Iron	Ferritin	4.2	ng/mL	15-150 ng/n	Below exam	Ferritin is a	The exampl	Ferritin is fe	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
582	Vitamins	Vitamin B12	144.0	pg/mL	200-900 pg/	Below exam	Vitamin B12	The exampl	Vitamin B12	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
583	Vitamins	Vitamin D	17.6	ng/mL	20-50 ng/ml	Below exam	Vitamin D is	The exampl	Vitamin D is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
584	Urinalysis	Urine Protei	11.2	mg/dL	0-20 mg/dL	Within exam	Urine protei	The exampl	Urine Protei	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
585	Urinalysis	Urine Gluco	10.9	mg/dL	0-15 mg/dL	Within exam	Urine gluco	The exampl	Urine Gluco	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
586	Urinalysis	Urine Keton	1.0	mg/dL	0-5 mg/dL	Within exam	Urine keton	The exampl	Urine Keton	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
587	Urinalysis	Urine pH	5.79	pH	4.5-8 pH	Within exam	Urine pH de	The exampl	Urine pH is	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
588	Urinalysis	Urine Specif	1.018	ratio	1.005-1.03 r	Within exam	Urine specif	The exampl	Urine Specif	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
589	CBC	Hemoglobin	16.32	g/dL	12-16 g/dL	Above exam	Hemoglobin	The exampl	Hemoglobin	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	
590	CBC	RBC Count	5.62	million/µL	4.5-5.5 million	Above exam	RBC count	t	The exampl	RBC Count	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
591	CBC	Hematocrit	35.2	%	36-46 %	Below exam	Hematocrit	The exampl	Hematocrit	Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.	

592	CBC	MCV	78.4 fL	80-100 fL	Below exam MCV descril The exampl i MCV is mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
593	CBC	MCH	26.52 pg	27-33 pg	Below exam MCH descril The exampl i MCH is mch Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
594	CBC	MCHC	32.64 g/dL	32-36 g/dL	Within exam MCHC descril The exampl i MCHC is mc Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
595	CBC	RDW	12.49 %	11.5-14.5 %	Within exam RDW descril The exampl i RDW is rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
596	CBC	WBC Count	7.5 ×10 ⁹ /μL	4-11 ×10 ⁹ /μL	Within exam WBC Count The exampl i WBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
597	CBC	Neutrophils	60.1 %	40-70 %	Within exam Neutrophils The exampl i Neutrophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
598	CBC	Lymphocyte	36.8 %	20-40 %	Within exam Lymphocyte The exampl i Lymphocyte Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
599	CBC	Monocytes	8.48 %	2-8 %	Above exam Monocytes The exampl i Monocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
600	CBC	Eosinophils	6.4 %	1-6 %	Above exam Eosinophils The exampl i Eosinophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
601	CBC	Basophils	~0.16 %	0-2 %	Below exam Basophils a The exampl i Basophils is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
602	CBC	Platelet Cou	126.0 ×10 ⁹ /μL	150-450 ×10	Below exam Platelets hel The exampl i Platelet Cou Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
603	CBC	MPV	7.14 fL	7.5-12 fL	Below exam MPV descril The exampl i MPV is mpv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
604	Diabetes	Fasting Gluc	83.3 mg/dL	70-99 mg/dL	Within exam Glucose is a The exampl i Fasting Gluc Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
605	Diabetes	Random Glc	114.1 mg/dL	70-140 mg/(L	Within exam Glucose is tL The exampl i Random Glc Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
606	Diabetes	HbA1c	5.28 %	4-5.6 %	Within exam HbA1c gives The exampl i HbA1c is hb Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
607	Kidney	Creatinine	0.789 mg/dL	0.6-1.3 mg/(L	Within exam Creatinine is e The exampl i Creatinine i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
608	Kidney	eGFR	103.2 mL/min/1.7	90-120 mL/r	Within exam eGFR is an e The exampl i eGFR is egfr Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
609	Kidney	BUN	21.0 mg/dL	7-20 mg/dL	Above exam BUN measu The exampl i BUN is bun Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
610	Kidney	Uric Acid	7.32 mg/dL	3-7 mg/dL	Above exam Uric acid is a The exampl i Uric Acid is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
611	Electrolytes	Sodium	134.2 mmol/L	135-145 mm	Below exam Sodium is a The exampl i Sodium is sc Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
612	Electrolytes	Potassium	3.37 mmol/L	3.5-5.1 mm	Below exam Potassium i The exampl i Potassium i Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
613	Electrolytes	Chloride	97.36 mmol/L	98-106 mm	Below exam Chloride is a The exampl i Chloride is c Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
614	Electrolytes	Calcium	10.02 mg/dL	8.5-10.5 mg/	Within exam Calcium is a The exampl i Calcium is c Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
615	Electrolytes	Bicarbonate	23.61 mmol/L	22-29 mmol/	Within exam Bicarbonate The exampl i Bicarbonate Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
616	Lipid Profile	Total Choles	79.6 mg/dL	0-199 mg/dL	Within exam Total Choles The exampl i Total Choles Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
617	Lipid Profile	LDL Cholest	56.4 mg/dL	0-99 mg/dL	Within exam LDL is a lipo The exampl i LDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
618	Lipid Profile	HDL Cholest	84.4 mg/dL	40-100 mg/(L	Within exam HDL is a lipo The exampl i HDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
619	Lipid Profile	Triglyceride	160.9 mg/dL	0-149 mg/dL	Above exam Triglyceride The exampl i Triglyceride Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
620	Liver	ALT	59.9 U/L	7-56 U/L	Above exam ALT is an en The exampl i ALT is alt Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
621	Liver	AST	7.6 U/L	10-40 U/L	Below exam AST is an en The exampl i AST is ast Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
622	Liver	ALP	35.8 U/L	44-147 U/L	Below exam ALP is an en The exampl i ALP is alp Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
623	Liver	Total Bilirub	0.01 mg/dL	0.1-1.2 mg/(L	Below exam Bilirubin is a The exampl i Total Bilirub Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
624	Liver	Albumin	4.04 g/dL	3.5-5 g/dL	Within exam Albumin is a The exampl i Albumin is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
625	Liver	Total Protei	7.22 g/dL	6-8.3 g/dL	Within exam Total protei The exampl i Total Protei Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
626	Thyroid	TSH	2.92 μIU/mL	0.4-4 μIU/mL	Within exam TSH is a hori The exampl i TSH is tsh Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
627	Thyroid	Free T4	0.97 ng/dL	0.8-1.8 ng/d	Within exam Free T4 is th The exampl i Free T4 is f Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
628	Inflammatory	CRP	1.7 mg/L	0-5 mg/L	Within exam CRP is a pro The exampl i CRP is crp Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
629	Inflammatory	ESR	21.6 mm/hr	0-20 mm/hr	Above exam ESR is a bloc The exampl i ESR is esr Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
630	Iron	Ferritin	160.8 ng/mL	15-150 ng/n	Above exam Ferritin is a The exampl i Ferritin is fe Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
631	Vitamins	Vitamin B12	144.0 pg/mL	200-900 pg/	Below exam Vitamin B12 The exampl i Vitamin B12 Educational demonstration data only

666	Lipid Profile LDL Cholest	49.5 mg/dL	0-99 mg/dL	Within exam LDL is a lipoj	The exam LDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
667	Lipid Profile HDL Cholest	80.2 mg/dL	40-100 mg/dL	Within exam HDL is a lipo	The exam HDL Cholest Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
668	Lipid Profile Triglycerides	125.2 mg/dL	0-149 mg/dL	Within exam Triglycerides	The exam Triglycerides Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
669	Liver ALT	59.9 U/L	7-56 U/L	Above exam ALT is an en	The exam ALT is alt is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
670	Liver AST	42.4 U/L	10-40 U/L	Above exam AST is an en	The exam AST is ast is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
671	Liver ALP	35.8 U/L	44-147 U/L	Below exam ALP is an en	The exam ALP is alp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
672	Liver Total Bilirub	0.01 mg/dL	0.1-1.2 mg/dL	Below exam Bilirubin is a The exam	Total Bilirub Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
673	Liver Albumin	3.38 g/dL	3.5-5 g/dL	Below exam Albumin is a The exam	Albumin is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
674	Liver Total Protein	7.06 g/dL	6-8.3 g/dL	Within exam Total protein	The exam Total Protein Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
675	Thyroid TSH	2.67 µIU/mL	0.4-4 µIU/mL	Within exam TSH is a hor	The exam TSH is tsh is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
676	Thyroid Free T4	1.6 ng/dL	0.8-1.8 ng/dL	Within exam Free T4 is a fre	The exam Free T4 is fr Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
677	Inflammatory CRP	1.35 mg/L	0-5 mg/L	Within exam CRP is a pro	The exam CRP is crp is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
678	Inflammatory ESR	8.8 mm/hr	0-20 mm/hr	Within exam ESR is a blo	The exam ESR is esr is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
679	Iron Ferritin	160.8 ng/mL	15-150 ng/mL	Above exam Ferritin is a The exam	Ferritin is fe Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
680	Vitamins Vitamin B12	956.0 pg/mL	200-900 pg/mL	Above exam Vitamin B12	The exam Vitamin B12 Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
681	Vitamins Vitamin D	17.6 ng/mL	20-50 ng/mL	Below exam Vitamin D	is The exam Vitamin D is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
682	Urinalysis Urine Protein	-0.16 mg/dL	0-20 mg/dL	Below exam Urine protein	The exam Urine Protein Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
683	Urinalysis Urine Glucose	-0.12 mg/dL	0-15 mg/dL	Below exam Urine glucose	The exam Urine Glucose Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
684	Urinalysis Urine Ketone	3.8 mg/dL	0-5 mg/dL	Within exam Urine ketone	The exam Urine Ketone Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
685	Urinalysis Urine pH	5.3 pH	4-5.8 pH	Within exam Urine pH	is a The exam Urine pH is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
686	Urinalysis Urine Specific Gravity	1.015 ratio	1.005-1.03 ratio	Within exam Urine specific gravity	The exam Urine Specific Gravity Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
687	CBC Hemoglobin	14.28 g/dL	12-16 g/dL	Within exam Hemoglobin	The exam Hemoglobin Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
688	CBC RBC Count	5.11 million/µL	4.5-5.5 million/µL	Within exam RBC count	The exam RBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
689	CBC Hematocrit	46.8 %	36-46 %	Above exam Hematocrit	The exam Hematocrit Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
690	CBC MCV	101.6 fL	80-100 fL	Above exam MCV	The exam MCV is mcv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
691	CBC MCH	26.82 pg	27-33 pg	Below exam MCH	The exam MCH is mch Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
692	CBC MCHC	31.88 g/dL	32-36 g/dL	Below exam MCHC	The exam MCHC is mch Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
693	CBC RDW	11.41 %	11.5-14.5 %	Below exam RDW	The exam RDW is rdw Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
694	CBC WBC Count	6.52 ×10 ⁹ /µL	4-11 ×10 ⁹ /µL	Within exam WBC count	The exam WBC Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
695	CBC Neutrophils	55.9 %	40-70 %	Within exam Neutrophils	The exam Neutrophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
696	CBC Lymphocytes	34.0 %	20-40 %	Within exam Lymphocytes	The exam Lymphocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
697	CBC Monocytes	3.02 %	2-8 %	Within exam Monocytes	The exam Monocytes Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
698	CBC Eosinophils	2.7 %	1-6 %	Within exam Eosinophils	The exam Eosinophils Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
699	CBC Basophils	2.16 %	0-2 %	Above exam Basophils	The exam Basophils is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
700	CBC Platelet Count	474.0 ×10 ⁹ /µL	150-450 ×10 ⁹ /µL	Above exam Platelets	The exam Platelet Count Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
701	CBC MPV	7.37 fL	7.5-12 fL	Below exam MPV	The exam MPV is mpv Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
702	Diabetes Fasting Glucose	69.1 mg/dL	70-99 mg/dL	Below exam Glucose is a The exam	Fasting Glucose is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
703	Diabetes Random Glucose	67.9 mg/dL	70-140 mg/dL	Below exam Glucose is a The exam	Random Glucose is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
704	Diabetes HbA1c	5.06 %	4.5-6 %	Within exam HbA1c	gives The exam HbA1c is hb Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
705	Kidney Creatinine	1.181 mg/dL	0.6-1.3 mg/dL	Within exam Creatinine	is The exam Creatinine is Educational demonstration data only. This synthetic example is not for diagnosis or treatment. Actual results should be interpreted using the laboratory's own reference range and the person's clinical context.
706	Kidney eGFR	99.0 mL/min/1.73 m ²	90-120 mL/min/1.73 m ²	Within exam eGFR is an e	The exam
